SPECIAL OFFER

To celebrate Musical Futures Online winning "Outstanding Music Education Resource of 2022" and our first live training event in over 2 years we are inviting primary and secondary teachers of ages 7-14 to attend this training

AIMS OF THE DAY

- Learn how deliver outstanding lessons that are rooted in active music making - even if you aren't necessarily a musician yourself
- Explore ways to ensure that all learners are fully engaged in authentic music lessons
- Explore resources to support beginner and more advanced ensemble performances using a range of classroom instruments
- Understand how to develop ensemble musicianship, teamwork and performance skills and enhance student motivation, enjoyment and skill-acquisition in music lessons

My experience this week has been particularly positive when using the 'MakingMusic' section on Musical Futures Online with our students. Some of these sessions are delivered by non-specialists and it's great to have an easy to use, simple resource that staff can feel comfortable with that engages students.
